SUMMARY

Mobile & Web Developer with experience in developing HRIS mobile and web applications, including backend (NestJS), frontend (Flutter), and system integration using APIs. Skilled in Docker, Postman, databases, and application performance optimization, with strong adaptability, problem-solving, time management, and teamwork skills to deliver optimal results across various projects.

EDUCATION

Pamulang University, South Tangerang

Jul 2020 – Aug 2024

Bachelor of Informatics Engineering

GPA 3.45 of 4.00

WORKING EXPERIENCE

PT. Shan Informasi Sistem, West Jakarta

Oct 2025 – Present

Mobile Developer

- Developed end-to-end HRIS mobile applications, including backend (**NestJS**) and frontend (**Flutter**) for features such as attendance, leave, overtime, permission, payroll, reports, and real-time notifications.
- Built integrated APIs with existing **HRIS systems**, including authentication, employee data management, and cross-database synchronization.
- Implemented **Docker** for containerization and **Postman** for API testing, improving development efficiency and environment consistency.
- Implemented **GetX** for state management, and optimized performance and UX through responsive interface design and asynchronous data processing.
- Integrated **Firebase Cloud Messaging (FCM)** to deliver real-time push notifications for attendance updates, approvals, payroll information, and system alerts.
- Implemented **face recognition-based attendance** using **Luxand Face Recognition SDK** to ensure secure and accurate employee verification.

PT. Shan Informasi Sistem, West Jakarta

Apr 2025 – Sep 2025

Web Developer Internship

- Migrated complex payroll systems to NestJS, including query optimization and business logic refactoring to improve process efficiency.
- Developed data maintenance features for dynamic leave and attendance calculations across multiple databases.
- Modified HRIS systems and developed HR & payroll reports according to client requirements using CodeIgniter 3, enhancing flexibility and operational efficiency.

Pamulang University, South Tangerang

Jun 2022 – Jul 2024

Laboratory Assistant

- Assisted 50+ students in web development, guiding them in implementing front-end and back-end concepts.
- Assisted lecturers in preparing and conducting practical sessions, including software installation, configuration, and troubleshooting.
- Managed 10+ live streaming sessions using OBS Studio for academic events, ensuring high-quality broadcasts.

PROJECTS

Flower Shop UI Slicing

2025

Front End Development

- Developed a pixel-perfect UI slicing project using React + Vite, TailwindCSS, AOS (Animate On Scroll).
- Project URL: flowershop-fe.netlify.app

Badminton Club Landing Page

2024

Front End Development

- Developed a responsive web landing page using React, featuring news updates and event highlights.
- Project URL: pbwbr02.netlify.app

Movie Database App

2024

Front End Development

- Built using React & Rest API to retrieve and display movie data from TMDb API, featuring real-time search, filtering, and dynamic UI updates. The styling is implemented with Native CSS for a clean and responsive design.
- Project URL: database-film.netlify.app

CERTIFICATION

Graphic Designer and Multimedia Graphic and Multimedia Designer

Mar 2023 – Mar 2026

Badan Nasional Sertifikasi Profesi (BNSP)

LANGUAGES AND SKILLS

- **Languages:** Bahasa Indonesia (Native), English (Intermediate).
- **Frontend Development:** HTML, CSS, TailwindCSS, Bootstrap, JavaScript, React.js, Vue.js, Next.js.
- **Backend Development:** PHP, Laravel, MySQL, NestJS.
- **Mobile Development:** Flutter, Dart,GetX, REST API, JSON, Asynchronous Programming.
- **Tools & Software:** Docker, Git, GitHub, VS Code, Postman.
- **Other Skills:** IT Support, Graphic Design, Microsoft Excel, Microsoft PowerPoint, Adobe Photoshop, Adobe Illustrator, Canva.
